

CARIBBEAN FLAVOURS AND FRAGRANCES LIMITED

REPORT TO SHAREHOLDERS ON THE COMPANY'S FINANCIAL PERFORMANCE FOR THE QUARTER ENDED SEPTEMBER 30, 2016

We are pleased to report on the performance of Caribbean Flavours and Fragrances Limited for the first Quarter ending September 30, 2016.

Sales for the quarter were \$101.148 million which represents a \$13.684 million or 15.64% growth when compared to the \$87.464 million recorded for the same period in 2015. The improvement to our revenue was primarily driven by increase in the sale of flavours in the domestic market as well as the sale of products to new customers. In addition, there has been a 26.68% year over year increase in the sale of fragrances for the quarter thereby contributing positively to both the revenue and our profitability.

The gross profit showed an increase of 12.96% moving from \$32.856 million to \$37.114 million as per our first quarter's performance. The Company will continue to refine and improve our purchasing strategy in order to extract the necessary efficiencies and improve our cost of sales and gross profit.

The company continues to manage its administrative and general expenses within budget and compared to the 2015 quarter, there has been an increase in order to adequately support the changing requirements of the business.

The selling and distribution costs are a direct reflection of the sales growth and the expansion of our corporate social responsibility. As such expenses related to advertising and our donations and sponsorship have increased accordingly. We will continue to review these expenses and our distribution methods to ensure that efficiencies are obtained at all times.

The net profit recorded for the period was \$20.216 million and represents a 0.73% decrease in profit when compared to \$20.363 million recorded for the similar comparative reporting period. We will continue to deliver on our business plans which are anchored on the pillars of revenue growth and expense management in order to deliver the desired results.

CARIBBEAN FLAVOURS AND FRAGRANCES LIMITED
NOTES TO THE UNAUDITED FINANCIAL STATEMENTS
THREE MONTHS ENDED 30 SEPTEMBER 2016

1. IDENTIFICATION AND PRINCIPAL ACTIVITIES

Caribbean Flavours and Fragrances Limited ("the Company") is a company limited by shares, incorporated and domiciled in Jamaica. Its registered office is located at 226 Spanish Town Road, Kingston 11. The principal activity of the company is the manufacture of and distribution of flavours mainly for the beverage, baking and confectionery industries. The company also sells food colouring and fragrances.

2. BASIS OF PREPARATION

Statement of Compliance

The financial statements of Caribbean Flavours and Fragrances Limited have been prepared in accordance with and compliance with International Financial Reporting Standards (IFRS) under the historical cost convention, as modified by the revaluation of certain financial assets. The same accounting policies and methods of computation are followed in the unaudited financial statements as were applied in the audited financial statements for the year ended June 30, 2015.

New Standards

IAS 1 (Amended)

Presentation of Financial Statements (effective for annual reporting periods beginning on or after 1 July 2012), amendments to revise the way other comprehensive income is presented.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. Although these estimates are based on management's best knowledge of current events and action, actual results could differ from those estimates. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are noted below:

Critical Accounting Estimates and Judgements in Applying Accounting Policies

The company makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these financial statements are summarized below and have been consistently applied for all the years presented.

Depreciable assets

Management exercises judgement in determining whether cost incurred can accrue significant future economic benefits to the Company to enable the value to be treated as a capital expense. Further judgement is applied in the annual review of the useful lives of all categories of property, plant and equipment and their expected utility to the Company resulting in the depreciation determined thereon

Allowance for losses

In determining amounts recorded for provision for impairment of receivables in the financial statements, management makes judgements regarding indicators of impairment, that is, whether there are indicators that suggest there may be a measureable decrease in the estimated future cash flows from receivables, for example, default and adverse economic conditions. Management also makes estimate of likely future cash flows from impaired receivables as well as the time of such cash flows. Historical cost experience is applied where indicators of impairment are not observable on individual significant receivables with similar characteristics, such as credit risks.

Comparative information

Comparative figures have been reclassified, where necessary, to conform to changes in presentation in the current year.

Valuation of property, plant and equipment

Management exercises judgement in determining whether cost incurred can accrue significant future economic benefits to the Company to enable the value to be treated as a capital expense. Further judgement is applied in the annual review of the useful lives of all categories of property, plant and equipment and their expected utility to the Company resulting in the depreciation determined thereon.

Depreciation

Property, plant and equipment are stated at historical cost less accumulated depreciation. Depreciation is calculated on the straight-line basis at annual rates estimated to write-off the cost of fixed assets over their expected useful lives. The annual rates are as follows:-

- Leasehold property & improvements 10%
 - Buildings 2 ½%
 - Plant and machinery, furniture
& fixtures, office equipment 10%
 - Computer equipment 33⅓%
 - Motor vehicles 25%
-

The assets' residual values and useful lives are reviewed periodically for impairment. Where an asset's carrying amount is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount. Gains and losses on disposal of property, plant and equipment are determined by comparing the proceeds with the carrying amount and are recognized in other income in the statement of comprehensive income.

Repairs and maintenance expenditure are charged to statement of comprehensive income during the financial period in which they are incurred.

Revenue recognition

Revenue from the sale of goods is recognised in the income statement when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or material associated costs on the possible return of goods.

Foreign currency translation

Balances in foreign currencies are translated at the rate of exchange ruling at the statement of financial position date. Transactions during the year are translated at the exchange rate prevailing at the date of the transactions. Gains or losses on translation are dealt with in the statement of comprehensive income. Exchange rates are determined by the weighted average rate at which Commercial Banks trade in foreign currencies as published by the Central Bank.

Trade receivables

Trade receivables are carried at anticipated realizable value. A provision is made for impairment of trade receivables when it is established that there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. When a trade receivable is uncollectable, it is written off against the allowance account for trade receivable. Subsequent recoveries of amounts previously written off are credited in the statement of comprehensive income.

4. TAXATION -

The Company's shares were listed on the Junior Market of the Jamaica Stock Exchange on October 7, 2013. Consequently the company is entitled to a remission of taxes for ten (10) years in the proportions set out below, provided the shares remain listed for at least fifteen (15) years.

Years 1 to 5 (October 7, 2013 – October 6, 2018) – 100%

Years 6 to 10 (October 7, 2018 – October 6, 2023) – 50%

5. EARNINGS PER STOCK UNIT

Earnings per stock unit are calculated by dividing the profit for the period by the weighted average number of shares in issue for the period.
